

Semester

1

Master modules in the focus elective area

*32-40 credit points in the Life Science focus
30-40 credit points in the Chemistry focus
30-42 credit points in the Physics focus*

Master modules in the interdisciplinary elective area

*20-28 credit points in the Life Science focus
20-30 credit points in the Chemistry focus
18-30 credit points in the Physics focus*

2

3

Scientific Lecture Series

Seminars in the fields of Life Science, Chemistry and Physics

3 credit points

Research Specialization

Internship

12 credit points

Research Course

Practical or theoretical preparation for the final thesis

15 credit points

4

Master Thesis

30 credit points
