

**Admission Requirements for Master Thesis**  
**Course of Study: "Nanosciences – Materials, Molecules and Cells."**  
**Fokus Life Science**

ER 2024

Name:

Matriculation Number:

Admission to the Master Thesis Programme requires proof of a minimum of 72 credit points from the previous Study Programme in accordance with § 5 of the Course specific examination regulations for "Nanosciences – Materials, Molecules and Cells."

List of Exams successfully completed:

| <b>Mandatory Components (32-40 credit points)</b>  | <b>SWH</b> | <b>Credit-points</b> | <b>Grade</b> |  |
|--|------------|----------------------|--------------|--|
| <b>Master Module = MM</b>  |            |                      |              |  |
| MM   | 8          | 12                   |              |  |
| MM   | 8          | 12                   |              |  |
| MM   | 8          | 12                   |              |  |
| MM   | 8          | 12                   |              |  |
| In-Depth Lecture   | 2          | 4                    |              |  |
| In-Depth Lecture   | 2          | 4                    |              |  |
| In-Depth Lecture   | 2          | 4                    |              |  |
| <b>Interdisciplinary Mandatory Elective Componentes ((20-28 LP) Chemistry or Physics</b> |            |                      |              |  |
|  |            |                      |              |  |
|  |            |                      |              |  |
|  |            |                      |              |  |
|  |            |                      |              |  |
|  |            |                      |              |  |
|  |            |                      |              |  |
| <b>Mandatory Scientific Specialization</b>   |            | <b>30</b>            |              |  |
| Talks in Biology, Chemistry, Nanoscience, Physics  | 2          | 3                    |              |  |
| Research Specialization  | 9          | 12                   |              |  |
| Research Course (Practical or Theoretical Thesis Preparation)                            | 10         | 15                   |              |  |
| <b>Master's Thesis</b>   |            | <b>30</b>            |              |  |
| Seminar on Scientific Working  | 1          |                      |              |  |
| Master's Thesis  |            | 30                   |              |  |
