Requirements

Compulsory participation in 14 scientific talks during the time of studies. To ensure that a broad spectrum of disciplines is represented, 9 talks from the interdisciplinary **RTG 2900** seminar series and 3 talks from the biological **SFB 1557** seminar series have to be visited. The sequence can be chosen individually and attendance is proven by signature of an authorized examiner (AE) from the Osnabrück University, present during the talk. To pass the module, the list must be submitted to the master thesis supervisor.
