FAQ - German language courses at the Language Center in the 2020/21 winter term

Will there be a placement test in the 2020/21 winter term?
If you wish to take part in a German course in the winter term, you have to take an online placement test. On StudIP you will find the course ‘Einstufungstest Deutsch als Fremdsprache Wintersemester 2020/21’. Please register for this course. You will receive more information about the placement test at the end of August. There will be several test dates in October. Please find a demo version of the test on www.onset.de
If you have already successfully completed a German course at the University of Osnabrück, you do not need to take a placement test. In this case, or if you have any questions regarding the placement test or the courses, please send an e-mail to claudia.nathaus@uni-osnabrueck.de.

When do the German language courses start?
The language courses will be offered online and commence on 26 October 2020 (as per 30 July 2020). This date, however, is still subject to change. Please check the University’s main website or the website of the Language Center for any updates.

Where can I get further information?
If you have any other questions, please contact Dr. Christiane Beinke (christiane.beinke@uos.de) or Claudia Nathaus (claudia.nathaus@uos.de) by e-mail.

How can I get my certificate of achievement from the previous semester?
If you need a certificate of achievement for a course you have attended at the Language Center, please write an e-mail to Corinna Sonntag (csonntag@uos.de).
