In the light of the widespread influenza outbreak and the spread of the Corona virus, we recommend taking the following precautions as recommended by the Robert Koch-Institute:

- Wash your hands frequently
- Keep your hands away from your face
- Keep your distance
- Keep your home clean
- Wash clothes at high temperatures
- Wash your hands thoroughly
- Cough and sneeze into the crook of your arm
- Dress open wounds
- Handle food properly and safely
- Air rooms regularly

We also recommend that you do not shake hands when you greet somebody.

All current information regarding the Corona virus together with the details of the relevant contact person can be found under:
