

Textgrid to Transcript

www.oliverehmer.de

oliver.ehmer@romansitik.uni-freiburg.de

Usage of the script in Praat:

1) Open a TextGrid in Praat: *Praat (Window Menu) > Open > Read from File...*
The TextGrid will appear in your list of Objects.

2) Open the script "textgrid_to_transcript.praat" that you have just downloaded:
Praat (Main Menu) > Open Praat Script...
The script will open in a separate Script window.

3) In the script window select: *Run > Run*
A separate window will open in which you can adjust the layout of the transcript.
Select "OK" and the transcript will be displayed.

Attention:

- Make sure to **not** open the Praat script "" by selecting *Praat (Window Menu) > Open > Read from File...*. Rather open the script by selecting " *Praat (Main Menu) > Open Praat Script...*
- Make sure that you have selected a TextGrid in your list of objects in the main window of Praat before running the Script.
